

# Where all good wines go to achieve their potential.

The Toshiba Dual Temperature Zone Wine Cellar simultaneously stores both red and white wines at their individual perfect temperatures and in ideal conditions, allowing each vintage's subtle aromas and flavours to develop to their full potential.

**TOSHIBA**  
Leading Innovation >>>

The Toshiba GR-W90 wine cellar is a compact 76Lt wine cabinet with a dual-zone climate control system for ideal storage of up to 19 bottles of red and white wine at their individual ideal temperatures, at the same time. It also features automatic humidity control, UV protected double-glazed doors to shield against damaging light and a 2 year warranty.
